Attractions CSS Test	6

Attractions Page Test

For each test, the developer should: provide a test description, a test objective, the developer name and date tested. For each step, fill out the actions to be taken and describe the expected results, and indicate yes or no for each step depending upon the result. The peer tester should provide their name, date tested, indicate yes or no for each step depending upon the result, and a screenshot (thumbnail) of the result.

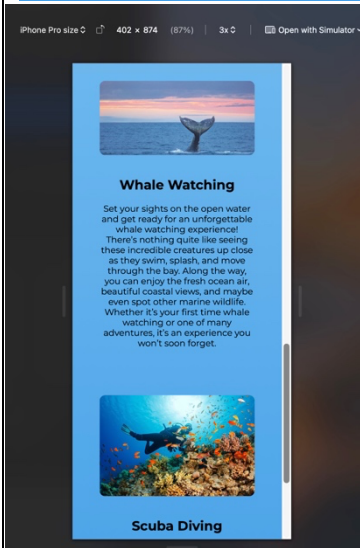

Attractions Page Test

Test 1	Attractions Page Test			
	Test Objective: Verifies that all text, and images load properly	Developer: Cannon Date tested: 2026/09/23	Peer tester: Patrice Date tested: 2026/09/24	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail + Screenshot
1	Open Attraction Page	The Attractions page opens successfully without errors. The page title, text, and main content should display correctly.	<yes/no>	Yes 
2	Hiking Img and text loads successfully	The Hiking image loads successfully, and the related Hiking text is displayed clearly with no missing content.	<yes/no>	Yes 

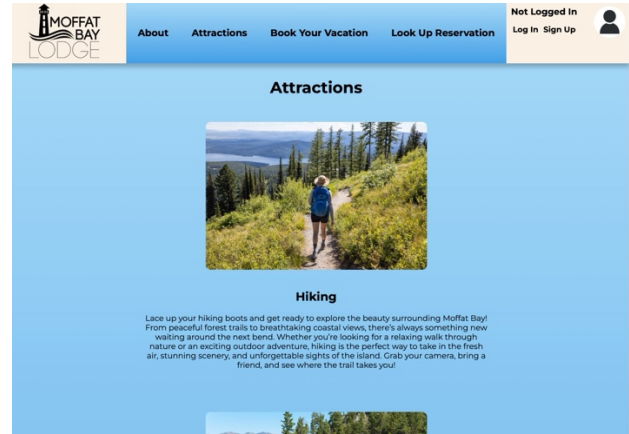

Attractions Page Test

3	Kayaking img and text loads successfully	The Kayaking image loads successfully, and the related Kayaking text is displayed clearly with no missing content.		Yes  Kayaking Grab a paddle and experience Moffat Bay from the water! Kayaking is a fun and relaxing way to explore the shoreline, take in the beautiful scenery, and enjoy the peaceful sounds of nature all around you. Whether you're gliding across calm waters, spotting local wildlife, or simply enjoying the fresh air, every trip offers a new adventure. Perfect for beginners and experienced paddlers alike, kayaking is a great way to make unforgettable memories during your stay.
4	Whale Watching img and text loads successfully	The Whale Watching image loads successfully and the related Whale Watching text appears correctly with no missing content.		Yes  Whale Watching Set your sights on the open water and get ready for an unforgettable whale watching experience! There's nothing quite like seeing these incredible creatures up close as they swim, splash, and move through the bay. Along the way, you can enjoy the fresh ocean air, beautiful coastal views, and maybe even spot other marine wildlife. Whether it's your first time whale watching or one of many adventures, it's an experience you won't soon forget.

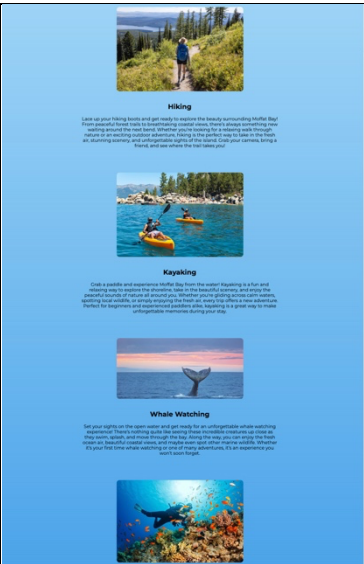

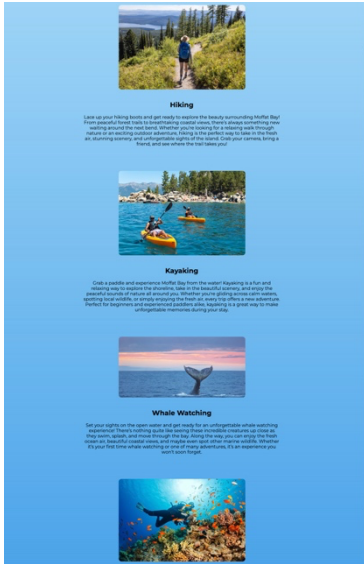

Attractions Page Test

5	Scuba Diving img and text loads successfully	The Scuba Diving image loads successfully and the related Scuba Diving text appears correctly with no missing content.	<img/no>	Yes  Scuba Diving Dive beneath the surface and discover a whole new side of Moffat Bay! Scuba diving gives you the chance to explore the underwater world, from colorful marine life to hidden sights beneath the waves. Whether you're an experienced diver or looking to try something new, the clear waters and peaceful surroundings make every dive an exciting adventure. Take the plunge and create memories that go far beyond the shoreline. 
Comments	The Attractions page loaded correctly, and each attraction section displayed its image and text as expected. The Hiking, Kayaking, Whale Watching, and Scuba Diving sections were easy to identify and had no noticeable missing content. The page could be improved further by making sure all images remain clear and properly displayed on different screen sizes. The Page loads correctly and the elements are centered (titles, text and pictures). The page is responsive and displays very well on mobile format devices.			

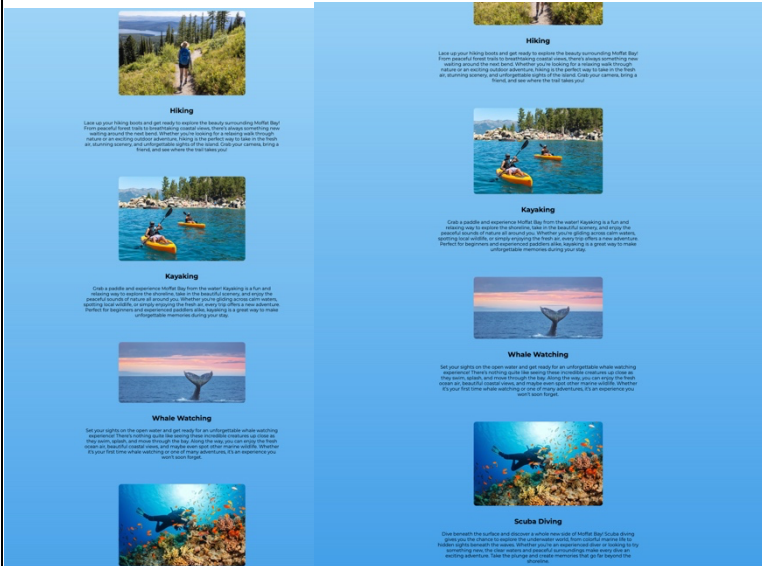

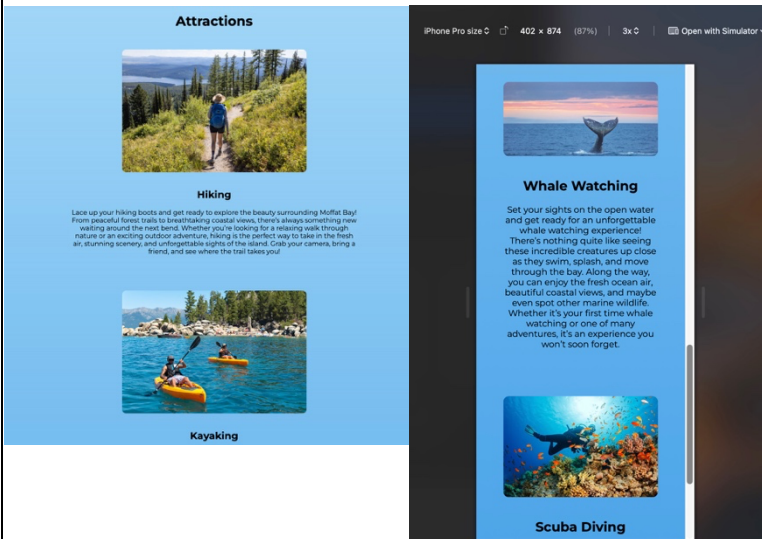

Attractions Page Test

Test 2	Attractions CSS Test			
	Test Objective: Verifies That all CSS loads properly	Developer: Cannon Date tested: 2026/09/23	Peer tester: Patrice Date tested: 2026/09/24	
Step	Action	Expected results:	Developer pass/fail	Tester pass/fail
1	Open Attraction Page	The Attractions page opens successfully with all CSS styling applied. The page should not display as unformatted HTML.	<yes/no>	Yes 
2	Background Color shows up and fades darker as you go down	The background color displays correctly and gradually become darker as the user moves down the page. The transition should appear smooth and consistent.	<yes/no>	Yes

Attractions Page Test

					
3	Images are centered	All attraction images are centered on the page and appear consistently aligned with one another.	<yes/no>	Yes 	

Attractions Page Test

4	Text is Centered	All headings, descriptions, and attraction text are centered correctly and are easy to read.	<yes/no>	Yes 
5	Images are sized properly	All images are displayed at an appropriate and consistent size without appearing stretched, distorted, or unusually large or small.	<yes/no>	Yes 

Attractions Page Test

Comments	The CSS styling displays properly and gives the Attractions page a consistent appearance. The centered images and text make the page organized and easy to follow, while the background gradient adds visual interest. The image sizing should also be checked on both smaller and larger screens to make sure the layout remains consistent and responsive. The CSS styling brings depth to the background thanks to the color gradient, and displays perfectly in desktop and mobile format.
