

Moffat Bay Lodge Video Walkthrough Outline

1. Introduction

- Introduce the Moffat Bay Lodge website, the Gold team, and team members.
- Explain that the site allows visitors to explore the lodge, create an account, make reservations, and retrieve reservation details.

2. Landing Page

- Begin on the Landing Page.
- Highlight the lodge branding, navigation bar, featured images, room information, and booking call to action.
- Briefly explain how the navigation bar connects the major areas of the site.

3. About Us Page

- Open the About Us Page.
- Describe the lodge, its location, and the type of experience it offers.
- Highlight the page's information about relaxation, outdoor activities, and nearby attractions.

4. Contact Us Page

- Scroll to or open the Contact Us form.
- Point out the name, email, phone, subject, and message fields.
- Submit a sample message.
- Show the confirmation response and explain that messages are stored for lodge staff to review.

5. Attractions Page

- Open the Attractions Page.
- Highlight the featured activities and destinations.
- Explain how the page helps guests plan activities around their stay.

6. Login Page

- Log out if registration automatically signs in the customer.

- Demonstrate the Login Page.
- Mention that passwords are hidden and that incorrect credentials produce a general error message.
- Log in with the demonstration account.
- Explain that you could also create an account if the user does not already have one.

7. User Registration Page

- Open the registration form.
- Briefly explain the required account information and validation.
- Register a demonstration customer account.
- Show the successful registration response.

8. Room Reservation Page

- Select Book Your Vacation.
- Explain that a user must have an account to access the page. Show the links on the page that allow the user to either log in to their account or create one.
- Demonstrate selecting:
 - A room type
 - Number of guests
 - Check-in and check-out dates
 - Special requests
- Point out that room choices, occupancy limits, and prices come from the database.

9. Reservation Summary Page

- Continue to the Reservation Summary.
- Review the room type, dates, guest count, number of nights, nightly rate, special requests, and total price.
- Explain that the server calculates the total.
- Confirm the reservation and show the generated MBR confirmation number.

10. Look Up Reservation Page

- Log out to demonstrate that lookup does not require an account.
- Open Look Up Reservation from the navigation bar.
- Search using the customer's email address.
- Show that all reservations connected to that email are displayed.
- Perform a second search using the MBR confirmation number.
- Also, demonstrate the invalid information message.

11. Conclusion

- Summarize the complete customer journey:
 - Explore the lodge
 - Learn about attractions
 - Contact the lodge
 - Register and log in
 - Create and confirm a reservation
 - Retrieve reservation information later
- Close by emphasizing that the site combines public information, customer accounts, database-backed reservations, and reservation lookups into a single system.
